

Strategic Investment Advisory Panel – Chair Biography

Cath Botta

Cath is committed to soil health, working extensively across Australia as a soil scientist, educator and facilitator with rural and regional communities. She previously lectured for the University of Melbourne for nine years on the areas of soil and water, communications and community consultation; and with the Department of Agriculture, Victoria, worked on the identification of soil issues limiting crop productivity and the development of cropping system solutions. She is currently also the Non-Executive Board Director for North East Water, Deputy Board Chair on Benella Health, and Treasurer of Australian Society of Soil Science.
