**Australian Pesticides and
Veterinary Medicines Authority**

**PERMIT TO ALLOW SUPPLY AND MINOR USE OF
AN UNREGISTERED AGVET CHEMICAL PRODUCT
FOR CONTROL OF REDBACK SPIDERS IN TABLE GRAPES**

PERMIT NUMBER – PER85499

This permit is issued to the Permit Holder in response to an application granted by the APVMA under section 112 of the Agvet Codes of the jurisdictions set out below. This permit allows a Supplier (as indicated) to possess the product for the purposes of supply and to supply the product to a person who can use the product under permit. This permit also allows a person, as stipulated below, to use the product in the manner specified in this permit in the designated jurisdictions. This permit also allows the Permit Holder, the Supplier (if not one and the same) and any person stipulated below to claim that the product can be used in the manner specified in this permit.

THIS PERMIT IS IN FORCE FROM 28 NOVEMBER 2017 TO 31 AUGUST 2027

Permit Holder:

HORTICULTURE INNOVATION AUST LTD
Level 7, 141 Walker Street
NORTH SYDNEY NSW 2060

Supplier:

BOC Limited
Riverside Corporate Park
10 Julius Avenue
NORTH RYDE NSW 2113

Persons who can use the product under this permit:

Persons who are trained or experienced in the use and handling of fumigation pesticides and equipment.

CONDITIONS OF USE

Products to be used:

LIQUIFIED SULPHUR DIOXIDE

AN UNREGISTERED PRODUCT

Containing: 100% SULPHUR DIOXIDE as the only active constituent.

LIQUIFIED CARBON DIOXIDE

AN UNREGISTERED PRODUCT

Containing: 100% CARBON DIOXIDE as the only active constituent.

Directions for Use:

Crop	Pest	Rate
Table Grapes (for export to New Zealand)	Redback spider (<i>Latrodectus hasseltii</i>)	1% sulphur dioxide and 6% carbon dioxide at ambient temperature (minimum of 18°C) for 30 minutes.

Critical Use Comments:

- 1% Sulphur Dioxide is equivalent to 27.174 grams sulphur dioxide per cubic metre.
- 6% Carbon Dioxide is equivalent to 109.69 grams carbon dioxide per cubic metre.
- Apply post-harvest once per crop by sealed forced air fumigation.

Jurisdiction:

All States and Territories.

Additional Conditions:

This permit allows for the use of a product in a manner specified on the permit. Persons who wish to prepare for use and/or use products for the purposes specified in this permit must read, or have read to them, the details and conditions of this permit.

Users must comply with any directions as indicated in the relevant appropriate guideline/protocol as prepared by the relevant state/territory authority (e.g. Department of Primary Industries), as well as any requirements of the commonwealth Department of Agriculture Forestry and Fisheries and other relevant requirements of the jurisdiction of use. Users must comply with the First Aid Facilities, Precautions For Use and Safe Handling Information as displayed on the appropriate Safety Data Sheets (SDS); and have and retain a copy of this Permit in their possession.

Ensure that an occupational hygiene monitoring system is in place at the fumigation facility to ensure that the Australian standard for occupational exposure to sulphur dioxide and carbon dioxide is complied with. Ensure a reporting system is in place to determine whether odour detection/irritation may occur when opening packed fruit containers. Instances of odour detection/irritation must be immediately reported to the APVMA.

Supply

The supplier must supply the product in a container that complies with the requirements of section 18 of the Agricultural and Veterinary Chemicals Code Regulations. The Supplier must supply copies of the current Safety Data Sheets (SDS) for each product.

The holder of the permit must notify the APVMA of new information, including relevant information in accordance with section 161 of the Schedule to the *Agricultural and Veterinary Chemicals Code Act 1994*, in accordance with the obligation imposed by that section.

Issued by the Australian Pesticides and Veterinary Medicines Authority

Note: 31/08/2022 – Permit updated to change holder from AUSTRALIAN TABLE GRAPE ASSOCIATION INCORPORATED to HORTICULTURE INNOVATION AUST LTD. Additional conditions updated to current standard. Permit expiry extended to 31/08/2027. Permit issued as Version 2.
